Bling It

Of all the product choices that go into a new kitchen or bath installation, finding just the right hardware might be the last, but should never be the least, consideration. With many brands upping the game with luxe pieces reminiscent of jewelry, from drawer pulls to faucets, glamour's at your fingertips.

A COLORFUL SELECTION of cabinet hardware is pretty enough to double as cocktail rings. Details, Pages 34–35.

SPARKLE AND SHINE

In searching for hardware for this project, we found some collections had been created in collaboration with jewelry designers. Pieces by Lisa Jarvis, shown on Page 28, ring true to the line's "jewelry for furniture" tag line, and Waterworks's Isla collection, shown on Page 30, involved the talents of sculptor and jewelry designer Jill Platner, whose cast molds were 3-D-scanned from hand-carved wax models for a sculpted, handmade look.
